

NAEP 2011 State-Specific Paper & Pencil Accommodations Guidelines Summary for English Language Learners (ELL)
Grades 4 and 8
Tennessee State Department of Education

The Tennessee State Department of Education expects that most English language learners (ELL) will be included on the National Assessment of Educational Progress (NAEP) as follows:

- English language learners who participate in the TCAP Achievement Tests (including ELSA) with or without accommodations should participate in NAEP.
- English language learners who participate in the TCAP Modified Achievement (MAAS) assessment should participate in NAEP with appropriate accommodations.
- Only English language learners who have been enrolled in a United States school for less than 12 months may be excluded from any NAEP assessments. All other English language learners should participate in NAEP using appropriate accommodations.

Since some students may require accommodations in order to access the assessment and to better demonstrate their knowledge and skills, NAEP offers most of the accommodations allowed on the state assessments. A student's English Language Proficiency Plan should not require revisions for the student to participate in NAEP. The following table should be used to determine allowable accommodations for English language learners. If an accommodation is not listed, please check with Laura Atkins to see if the accommodation can be provided on NAEP.

Several accommodations provided on the TCAP Achievement Tests are not necessary for NAEP because of how it is administered. For example:

- Writes answers in test booklet: On NAEP, all students write responses in the assessment booklets, not on separate answer documents.
- Takes assessment over multiple days: NAEP is much shorter than the state assessments, so multiple day testing is not offered. Students take two 25-minute subject matter blocks and answer survey questions about their educational experiences.

Unlike the TCAP Achievement Tests, please keep in mind that NAEP does not produce results for individual students or schools. All results are summarized only at the state and national level. In other words, the NAEP assessments do not impose consequences for the student or the school, and are instead intended purely to provide a picture of educational performance and progress for the state.
